Grapevine
Police Department
ANNUAL REPORT

January 16, 2019

Grapevine City Council
P.O. Box 95104
Grapevine, Texas 79701

Dear Distinguished Members of the City Council,

The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted in 2001, the Texas Racial Profiling Law. During the past year, the Grapevine Police Department, in accordance with the law, has collected and reported traffic and motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements were implemented. Moreover, in 2017, the Sandra Bland Act was passed and signed into law (along with HB 3051 which introduced new racial and ethnic designations). The Sandra Bland Law requires that law enforcement agencies in the state collect additional data and provide a more detailed analysis. All of these requirements have been met by the Grapevine Police Department and are included in this report.

This particular report contains three sections with information on motor vehicle- related contact data. In addition, when appropriate, documentation is also a component of this report, aiming at demonstrating the manner in which the Grapevine Police Department has complied with the Texas Racial Profiling Law. In section 1, you will find the table of contents in addition to the Texas Senate Bill (SB1074); which later became the Texas Racial Profiling Law. Further, you will find the Texas HB 3389, which, in 2009, introduced new requirements relevant to racial profiling as well as the Sandra Bland Act. Also, in this section, a list of requirements relevant to the Racial Profiling Law as established by TCOLE (Texas Commission on Law Enforcement) is included. In addition, you will find, in sections 2 and 3 documentation which demonstrates compliance by the Grapevine Police Department relevant to the requirements as established in the Texas Racial Profiling Law. That is, you will find documents relevant to the implementation of an institutional policy banning racial profiling, the incorporation of a racial profiling complaint process and the training administered to all law enforcement personnel.

The last section of this report includes statistical data relevant to contacts, made during the course of motor vehicle stops and in accordance with the law, between 1/1/18 and 12/31/18. In addition, this section contains the TCOLE Tier 2 form, which is required to be submitted to this particular organization by March 1st of each year. The data in this report has been analyzed and compared to data derived from the U.S. Census Bureau's Fair Roads Standard. The final analysis and recommendations are also included in this report. The findings in this report serve as evidence of the Grapevine Police Department's commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

TCOLE GUIDELINES

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of *what* must be accomplished by an agency but allows wide latitude in determining *how* the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an “agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers’ official duties.”

The article further defines race or ethnicity as being of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American.” The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

Standard 2

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person's race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer's best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Commentary

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, "the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose."

Standard 3

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

Commentary

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide an analysis of the information collected by peace officer employed by the agency. The report is provided to the

governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

Standard 4

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

Commentary

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

Standard 5

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

Commentary

None

Standard 6

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

Commentary

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

Standard 7

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

Commentary

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

The Texas Law on Racial Profiling

AN ACT

Relating to the prevention of racial profiling by certain peace officers.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian

stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

The criteria may include consideration of tax effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency

servicing the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency servicing the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has installed video and audio equipment as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1).

Racial- or Bias-Based Profiling

313.1 PURPOSE AND SCOPE

This Racial Profiling policy is adopted in compliance with the requirements of Articles 2.131 through 2.136, Texas Code of Criminal Procedure, which prohibits Texas peace officers from engaging in racial profiling.

313.1.1 DEFINITIONS

Definitions related to this policy include:

- (a) **Racial Profiling.** A law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity. Racial profiling pertains to persons who are viewed as suspects or potential suspects of criminal behavior. The term is not relevant as it pertains to witnesses, complainants, persons needing assistance, or other citizen contacts.
- (b) **Race or Ethnicity.** A particular descent, including Caucasian, African, Hispanic, Asian, Native American or Middle Eastern descent.
- (c) **Acts Constituting Racial Profiling.** Acts initiating law enforcement action, such as a traffic or pedestrian stop, a detention, a search, issuance of a citation, or an arrest based solely upon an individual's race, ethnicity, or national origin or on the basis of racial or ethnic stereotypes, rather than upon the individual's behavior, information identifying the individual as having possibly engaged in criminal activity, or other lawful reasons for the law enforcement action.
- (d) **Pedestrian Stop.** An interaction between a peace officer and an individual who is being detained for the purposes of a criminal investigation in which the individual is not under arrest.
- (e) **Motor Vehicle Stop.** An occasion in which a peace officer stops a motor vehicle for an alleged violation of law or ordinance.

313.2 POLICY

Peace officers are strictly prohibited from engaging in racial profiling. The prohibition against racial profiling does not preclude the use of race, ethnicity, or national origin as factors in a detention decision by a peace officer. Race, ethnicity, or national origin may be legitimate

factors in such a decision when used as part of a description of a suspect or witness for initiating law enforcement action.

313.3 RACIAL- OR BIAS-BASED PROFILING PROHIBITED

- (a) Any person who believes that a peace officer has engaged in racial profiling with respect to that person may file a complaint with the department, and no person shall be discouraged, intimidated, or coerced from filing such a complaint, or be discriminated against because they have filed such a complaint.
- (b) The department shall accept and investigate citizen complaints alleging racial profiling by its peace officers. Such complaints shall be in writing, or the employee receiving the complaint should reduce the same to writing, and should include the time, place, and details of the incident of alleged racial profiling, the identity or description of the peace officer or officers involved, and the identity and manner of contacting the complainant.
- (c) Complaints of Racial Profiling shall be initially investigated by the accused officer's on duty supervisor.
- (d) Any employee who receives a citizen complaint alleging racial profiling shall forward the complaint to the on duty supervisor. Each complaint shall be issued a separate and unique number from the log by the Office of Internal Affairs. The log will be maintained in the Office of Internal Affairs. The complaint shall be documented on the department's standard citizen complaint form. All such complaints shall be reviewed and investigated within a reasonable period of time.
- (e) In investigating a complaint alleging racial profiling, the supervisor shall seek to determine if the officer who is subject of the complaint has engaged in an act of racial profiling which initiated the complaint or a pattern of racial profiling that includes multiple acts constituting racial profiling for which there is no reasonable, credible explanation based on established police and law enforcement procedures.
- (f) In the event that a complaint of racial profiling filed by an individual involves an occurrence that was recorded on audio or video, the supervisor shall preserve the tape until the completion of the investigation. The supervisor shall upon written request of the officer, promptly provide a copy of the recording to the officer that is a subject of the complaint. The supervisor shall document the day, date and time the recording was given to the requesting officer.
- (g) The supervisor investigating a complaint of racial profiling shall forward their findings through the chain of command to the appropriate Division Commander. The Division Commander shall make a determination and clear the complaint, or forward the complaint to the office of Chief of Police with recommendations for further action.
- (h) Upon final completion of the investigation, all reports associated with that investigation shall be filed within the Office of Internal Affairs.

313.3.1 CORRECTIVE ACTION

Any peace officer who is found, after investigation, to have engaged in racial profiling shall be subject to corrective action, which may include reprimand; diversity, sensitivity or other

appropriate training or counseling; suspension; termination of employment, or other appropriate measures.

313.3.2 PUBLIC EDUCATION

The department shall provide education to the public concerning the racial profiling complaint process. A summary of the public education efforts conducted throughout the department shall be forwarded to the Uniform Operations Division Commander for inclusion in the annual report filed with the City Council of the City of Grapevine.

313.3.3 REVIEW OF VIDEO AND AUDIO DOCUMENTATION STANDARDS

- (a) Each audio and video recording shall be retained for a minimum period of ninety (90) days unless a complaint is filed alleging that a peace officer of the City has engaged in racial profiling with respect to a motor vehicle or pedestrian stop, in which case the recording shall be retained until final disposition of the complaint.
- (b) In conjunction with preparation of the annual report required under Section 14.07 above, the designated supervisors shall periodically conduct reviews of a randomly-selected sampling of video and audio recordings in order to determine if patterns of racial profiling exist. Reviewing supervisors shall maintain a Racial Profiling Review Log. This log will be maintained in the Shift Commander's office along with the Racial Profiling Complaint Log. Reviewing supervisors shall document the date of review, date on the incident, officer reviewed and tape number.
- (c) In reviewing audio and video recordings, the supervisor shall seek to determine if the officer who is involved therein has engaged in a pattern of racial profiling that includes multiple acts constituting racial profiling for which there is no reasonable, credible explanation based on established police and law enforcement procedures. A single act constituting racial profiling may not be considered a pattern of racial profiling.

313.4 MEMBER RESPONSIBILITY

Every member of this department shall perform his/her duties in a fair and objective manner and is responsible for promptly reporting any known instances of racial- or bias-based profiling to a supervisor.

313.4.1 REASON FOR DETENTION

- (a) Officers detaining a person shall be prepared to articulate sufficient reasonable suspicion to justify a detention, independent of the individual's membership in a protected class.
- (b) To the extent that written documentation would otherwise be completed (e.g., arrest report, Field Interview (FI) card), the involved officer should include those facts giving rise to the officer's reasonable suspicion or probable cause for the detention, as applicable.
- (c) Nothing in this policy shall require any officer to document a contact that would not otherwise require reporting.

313.4.2 REPORTING TRAFFIC STOPS

Any officer conducting an enforcement stop on any motor vehicle shall collect the following information relating to the stop (Tex. Code of Crim. Pro art. 2.132; Tex. Code of Crim. Pro. art. 2.133):

- (a) The location of the stop
- (b) The initial reason for the stop
- (c) The physical description of the driver, including:
 - 1. The person's gender
 - 2. The person's race or ethnicity as best as can be determined by the officer
- (d) Whether the officer knew the race or ethnicity of the detained person before the stop
- (e) Whether a citation or a warning was issued as a result of the stop
- (f) Whether an arrest was made and, if so, for what offense
- (g) Whether the officer conducted a search and, if so, whether the search was based on consent, probable cause or reasonable suspicion, incident to arrest, contraband or evidence in plain view, the result of towing the vehicle for evidence or safekeeping or any other reason
- (h) Whether any contraband or evidence was discovered and whether it was in plain view
- (i) A description of any contraband or evidence located

313.5 SUPERVISOR RESPONSIBILITY

Supervisors shall monitor those individuals under their command for any behavior that may conflict with the purpose of this policy and shall handle any alleged or observed violation of this policy in accordance with the Personnel Complaints Policy.

- (a) Supervisors should discuss any issues with the involved officer and his/her supervisor in a timely manner.
- (b) In instances where officers record their public contacts, supervisors should periodically review the recordings to ensure compliance with racial profiling laws (Tex. Code Crim. Pro. art. 2.132(d)) and this policy.
 - 1. Supervisors should document these periodic reviews.
 - 2. Recordings that capture a potential instance of racial- or bias-based profiling should be appropriately retained for administrative investigation purposes.
- (c) Supervisors shall initiate investigations of any actual or alleged violations of this policy.
- (d) Supervisors should ensure that no retaliatory action is taken against any member of this department who discloses information concerning racial- or bias-based profiling.

313.6 STATE REPORTING

The Chief of Police shall submit to the Texas Commission on Law Enforcement (TCOLE) and each governing body served by this agency an annual report of the information required in Tex. Code of Crim. Pro. § 2.132(b)(6).

Further, unless exempt under Tex. Code of Crim. Pro. art. 2.135, prior to March 1 of each year, the Chief of Police shall provide to TCOLE and to each governing body served by this agency a report containing an analysis of the information required by Tex. Code of Crim. Pro. art. 2.133 (Tex. Code of Crim. Pro. art. 2.134).

These reports may not include identifying information about any officer who made a motor vehicle stop or about an individual who was stopped or arrested by any officer (Tex. Code of Crim. Pro. art. 2.132; Tex. Code of Crim. Pro. art. 2.134).

313.7 ADMINISTRATION

Each year, the Uniform Operations Division Commander shall review the efforts of the Department to prevent racial- or bias-based profiling and submit an overview, including public concerns and complaints, to the Chief of Police. This report should not contain any identifying information regarding any specific complaint, citizen or officers. It should be reviewed by the Chief of Police to identify any changes in training or operations that should be made to improve service.

Supervisors shall review the administrative overview report and the annual report submitted to TCOLE and the governing body and discuss the results with those they are assigned to supervise.

313.8 TRAINING

All sworn members of this department will be scheduled to attend TCOLE-approved training on the subject of racial- and bias-based profiling.

Each member of this department undergoing initial TCOLE-approved training will thereafter be required to complete an approved refresher course every five years or sooner if deemed necessary, in order to keep current with changing racial issues and cultural trends.

Public Education on Filing Compliments and Complaints

Informing the Public on the Process of Filing a Compliment or Complaint with the Grapevine Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a compliment or racial profiling complaint. In an effort to comply with this particular component, the Grapevine Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a compliment and complaint on a racial profiling violation by a Grapevine Police officer. In addition, each time an officer issues a citation, ticket or warning, information on how to file a compliment or complaint is given to the individual cited. This information is in the form of a web address (including in the document issued to the citizen), which has instructions and details specifics related to the compliment or complaint processes.

It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

Racial Profiling Training

Racial Profiling Training

All Grapevine Police officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Grapevine Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Grapevine has been included in this report.

It is important to recognize that the Chief of the Grapevine Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Grapevine Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

- A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers

2. The driver and passengers are questioned about things that do not relate to the traffic violation

3. The driver and passengers are ordered out of the vehicle

4. The officers visually check all observable parts of the vehicle

5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside

6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

- A. Drug courier profile (adapted from a profile developed by the DEA)
1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
 2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
 3. Vehicle is rented
 4. Driver is a young male, 20-35
 5. No visible luggage, even though driver is traveling
 6. Driver was over-reckless or over-cautious in driving and responding to signals
 7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior

1. Non-standard repainting (esp. on a new vehicle)
2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators

1. Not consistent with traffic flow
2. Driver is overly cautious, or driver/passengers repeatedly look at police car
3. Driver begins using a car- or cell-phone when signaled to stop
4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior

1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

Analysis and Interpretation of Data

Analysis

In order to understand the analysis provided in this report, it is imperative that the evolution of the Texas Racial Profiling Law and its requirements, is discussed. That is, in 2001, the Texas legislature passed Senate Bill 1074 which became the Texas Racial Profiling Law. Thus, the law came into effect on January 1, 2002 and required all police departments in Texas, to collect traffic-related data and report this information to their local governing authority by March 1st of each year. In 2009, the racial profiling law was modified to include the collection and reporting of all motor vehicle related contacts where a citation was issued or arrest made. In addition, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of the individual before detaining them. Further, it was required that agencies report motor vehicle related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1st of each year. The purpose in collecting and presenting this information is to determine if police officers in a particular municipality are engaging in the practice of racially profiling minority motorists.

The Texas Racial Profiling Law also requires police departments to interpret motor vehicle-related data. Even though most researchers would probably agree with the fact that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is very difficult to determine if individual police officers are engaging in racial profiling, from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific “individual” racist behavior from aggregate-level “institutional” data on traffic or motor vehicle-related contacts.

As stated previously, in 2009, the Texas Legislature passed House Bill 3389, which modified the Racial Profiling Law by adding new requirements; this took effect on January 1st, 2010. These changes included, but are were not limited to, the re-definition of a contact to include motor vehicles where a citation was issued or an arrest made. In addition, it required police officers to indicate if they knew the race or ethnicity of the individual before detaining them. Also, the 2009 law required adding "middle eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1st of each year.

In 2017, the Texas Legislators passed H.B. 3051 which removed the Middle Eastern data requirement but standardized the racial and ethnic categories relevant to the individuals that came in contact with the police. In addition, the Sandra Bland Act (S.B. 1849) was passed and became law. Thus, the most significant legislative act in Texas history regarding data requirements on law enforcement contacts, became law and took effect on January 1, 2018. The Sandra Bland Act not only requires the extensive collection of data relevant to police motor vehicle contacts, but it also mandates for the data to be analyzed while addressing the following:

1. *A comparative analysis of the information compiled (under Article 2.133):*
 - a. *Evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;*

- b. Examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction;*
 - c. Evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches.*
- 2. Information related to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.*

In an effort to comply with The Texas Racial Profiling/Sandra Bland Law, the Grapevine Police Department commissioned the analysis of its 2018 contact data. Thus, two different types of data analyses were performed. The first of these involved a careful evaluation of the 2018 motor vehicle-related data. This particular analysis measured, as required by the law, the number and percentage of Whites, Blacks, Hispanics or Latinos, Asians and Pacific Islanders, Alaska Natives and American Indians (Middle Easterners and individuals belonging to the “other” category, as optional categories), that came in contact with the police in the course of a motor vehicle related contact, and were either issued a ticket, citation, warning were issued or an arrest was made. Also, included in this data were instances where a motor vehicle contact took place for an alleged violation of the law or ordinance. The Tier 2 data analysis included, but was not limited to, information relevant to the number and percentage of contacts by race/ethnicity, gender, reason for the stop, location of stop, searches while indicating the type of search performed, result of stop, basis of an arrest and use of physical force resulting in bodily injury,

The additional data analysis performed was based on a comparison of the 2018 motor vehicle contact data with a specific baseline. When reviewing this particular analysis, it should be noted that there is disagreement, in the literature, regarding the appropriate baseline to be used when analyzing motor vehicle-related contact information. Of the baseline measures available, the Grapevine Police Department opted to adopt, as a baseline measure, the Fair Roads Standard. This particular baseline is based on data obtained through the U.S. Census Bureau (2010) relevant to the number of households that have access to vehicles while controlling for the race and ethnicity of the heads of households.

It is clear that census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. That is, census data contains information on all residents of a particular community, regardless of the fact they may or may not be among the driving population. Further, census data, when used as a baseline of comparison, presents the challenge that it captures information related to city residents only. Thus, excluding individuals who may have come in contact with the Grapevine Police Department in 2018 but live outside city limits. In some cases, the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

Since 2002, several civil rights groups in Texas expressed their desire and made recommendations to the effect that all police departments should rely, in their data analysis, on

the Fair Roads Standard. This source contains census data specific to the number of “households” that have access to vehicles. Thus, proposing to compare “households” (which may have multiple residents and only a few vehicles) with “contacts” (an individual-based count). This, in essence, constitutes a comparison that may result in ecological fallacy. Despite this, the Grapevine Police Department accepted the recommendation to utilize this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “good will” and “transparency” before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to the Dallas Fort-Worth (DFW) Metroplex).

Tier 2 (2018) Motor Vehicle-Related Contact Analysis

When analyzing the enhanced Tier 2 data collected in 2018, it was evident that most motor vehicle-related contacts were made with males and most of the contacts were made with White drivers. This was followed by Hispanic and Black drivers. In most instances, police officers report not knowing the race or ethnicity prior to the stop. Further, they cite as the primary reason for the stop to have been a “moving traffic violation”. This was followed by “vehicle traffic violation”.

In 2018, most of the contacts made took place in city streets. The Grapevine Police Department cites that most contacts did not result in a search. Of those searches made, most were based on probable cause. The second most significant reason for a search was “incident to arrest”. In addition, contraband was not found as a result of most searches. Of the contraband found, in most instances, drugs were cited as the most frequent contraband found.

The data also shows that the majority of stops resulted in a citation. This was followed by “written warnings”. When an arrest was made, the most frequent reason provided was a violation of the penal code. Also, 93 of the contacts resulted in the use of physical force which caused bodily injury.

Comparative Analysis

The data analysis of motor vehicle contacts to the census data relevant to the number of “households” in DFW who indicated, in the 2010 census, that they had access to vehicles, produced interesting findings. Specifically, the percentage of Whites, Blacks and Asians that came in contact with the police was higher than the percentage White, Black and Asian households in DFW that claimed, in the 2010 census, to have access to vehicles. It should be noted that in the case of all of these contacts, the percentage difference was within the margin of error and is considered to be statistically insignificant. With respect to Hispanics, a lower percentage of contacts were detected. That is, the percentage of Hispanic drivers that came in contact with the police in 2018 was the lower than the percentage of Hispanic households in DFW with access to vehicles.

The analysis of the searches performed shows that most searches did not produce contraband. This is consistent with national law enforcement trends. However, of those searches

that produced contraband, the majority of them involved White contacts. This was followed by Blacks.

Summary of Findings

The most recent Texas Racial Profiling Law requires that police department perform data audits in order to validate the data being reported. Consistent with this requirement, the Grapevine Police Department has engaged del Carmen Consulting, LLC in order to perform these audits in a manner consistent with normative statistical practices. As shown in table 7, the audits performed have shown that the data is valid and reliable. Further, as required by law, this report also includes an analysis on the searches performed. This analysis includes information on whether contraband was found as a result of the search while controlling for race/ethnicity. The search analysis demonstrates that the police department is engaging in search practices consistent with national trends in law enforcement.

While considering the findings made in this analysis, it is recommended that the Grapevine Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected) which may prove to be useful when determining the nature of the contacts police officers are making with all individuals.

As part of this effort, the Grapevine Police Department should continue to:

- 1) Perform an independent analysis on contact and search data in future years.
- 2) Commission data audits in 2019 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The comprehensive analysis of the data included in this report demonstrates that the Grapevine Police Department has complied with the Texas Racial Profiling Law and all of its requirements. Further, the report demonstrates that the police department has incorporated a comprehensive racial profiling policy, currently offers information to the public on how to file a compliment or complaint, commissions quarterly data audits in order to ensure validity and reliability, collects and commissions the analysis of tier 2 data, and ensures that the practice of racial profiling is not tolerated.
